

CORE & PIZZA Q-BRICK

100% selected beech briquette from FSC™ certified cultivations, of excellent quality, ecological, environmentally sustainable, bark-free, without glues and aggregants, produced only with very high pressing.

Develops abundant and long-lasting flames for a high radiant heat output. An ecological and safe alternative to traditional wood. It reaches very high temperatures in a short time and keeps them constant for a long time with reduced consumption and low residues.

Designed for professional use in pizza ovens and bakeries and for all wood-fired cooking.

- High calorific power
- Chemical, physical and bacteriological analyses made by the Istituto Giordano ^(RN-ITA)
- Made in UE
- EUTR compliant ^(reg. UE 995/10)
